LIST OF MANUFACTURERS

WHERE WE HAVE GOOD SOURCES
 AND CAN BE COMPETITIVE

For over 20 years Tryon Trading has represented and promoted the sale of Liquid Controls Sponsler and Venture Measurement products. Flow Measurement is our specialty. (Quotes in 24 hrs)

In addition, Tryon Trading is grateful to the many Manufacturers, USA Distributors, and USA Manufacturer Representative firms that have given us competitive pricing, application, and after sale support for the products listed below. It is not our intension to compete with the local International Sales Reps for these manufacturers, but to support our Sales Network as they work on projects and need process products in a flow measurement system. We only list manufacturers where we have a history of repeat sales. (Quotes in 5-8 working days)
